14X	36.5"	34"
16X	38"	36"
18X	43"	38"
20X	45.5"	40.5"

*Garment measurments

How to measure for this style:

1. Figure out the overall length that is needed.
2. Measure the student's chest.
3. Find the size that has the **overall length** that you need or is slightly longer, and make sure your student's chest measurement is **less than** the garment chest measurement that is provided.

EX: Overall length needed is 31", student's chest measurement is 34", you would order a size 12X.

Chest: at the fullest part of the torso, under the arms.

Overall Length: Start at the base of the back of the neck and measure down the back to where you need the skirt to fall based on your school's uniform guidelines.
